#### Great value MP3 module

By: **brutegreen** 2016-02-25 12:43:44

This little module is amazing value for money. Is very easy to setup and run as a stand-alone module, or to control via a micro controller. Check the forums though as the datasheet has errors relating to the checksum.

Fast three day shipping from Ontario to California. Got here in 3 days. I love fast shippers!! I already tried the module and it runs great. Plays mp3 natively. Code from Nickthegreek below ran smooth and no need to rename files.
